Travelling

Droni really gives us the chance to discover many different places in Georgia. And there is so much to see! From skiing in the winter to hinhing during summertime - there is a lot to explore!

The Droni colleagues didn't only join our journeys sometimes, but especially provide us many helpful tips and inspirations.

Party

Actually the Georgian wine tastes pretty good . You should not only taste the wine, but definitely the "Chacha", a pretty strong alcohol, as well! Georgians really know how to party, so don't miss the change to visit a party, bar or "Supra" (big never ending dinner with more drinking than food)

Work is fun here!

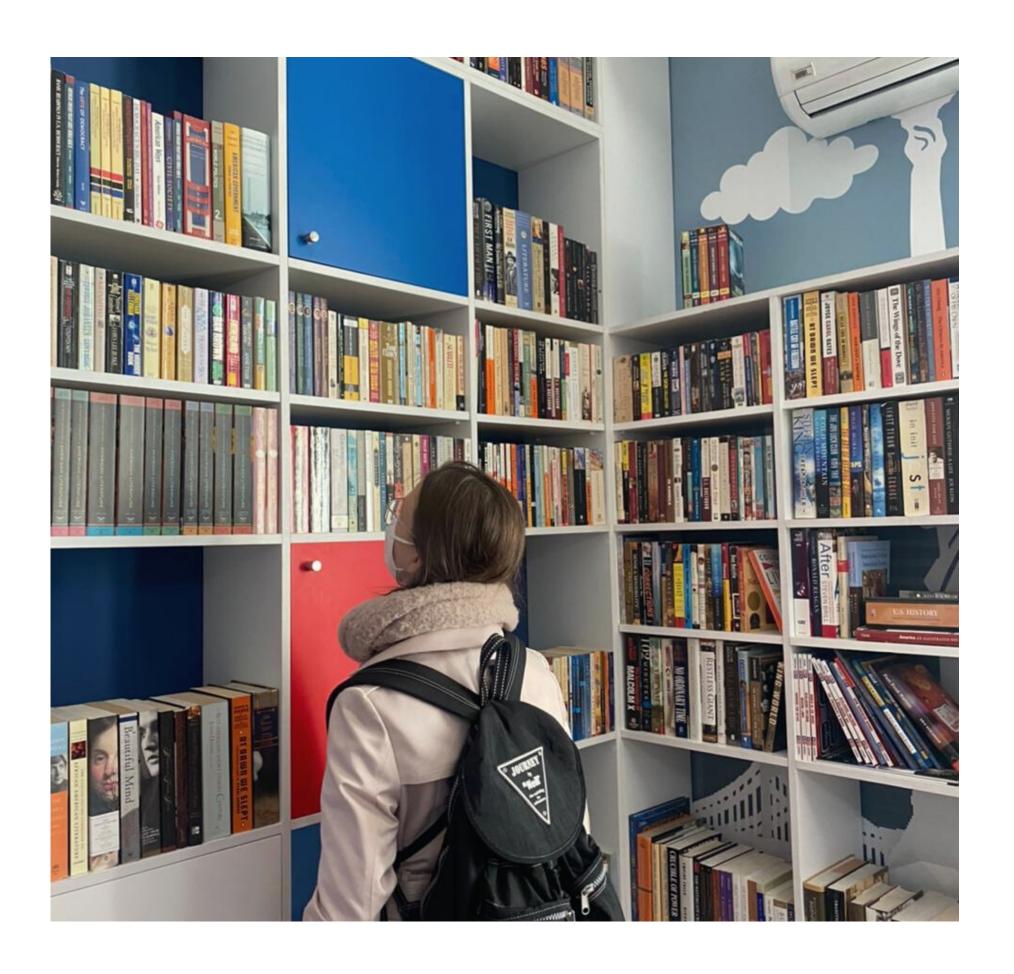

Living

We are living as six people in a shared flat. Thanks to two bathrooms and two balconies as well as a quite huge living room, it never gets to small. We have a nice kitchen, big rooms and even a television for some movie nights. As long as everyone is more or less tidy, we love Living together here! The picture shows the view from one of our balconies. By the way: we live in the absolute best area in Tbilisi: in between center and nature!

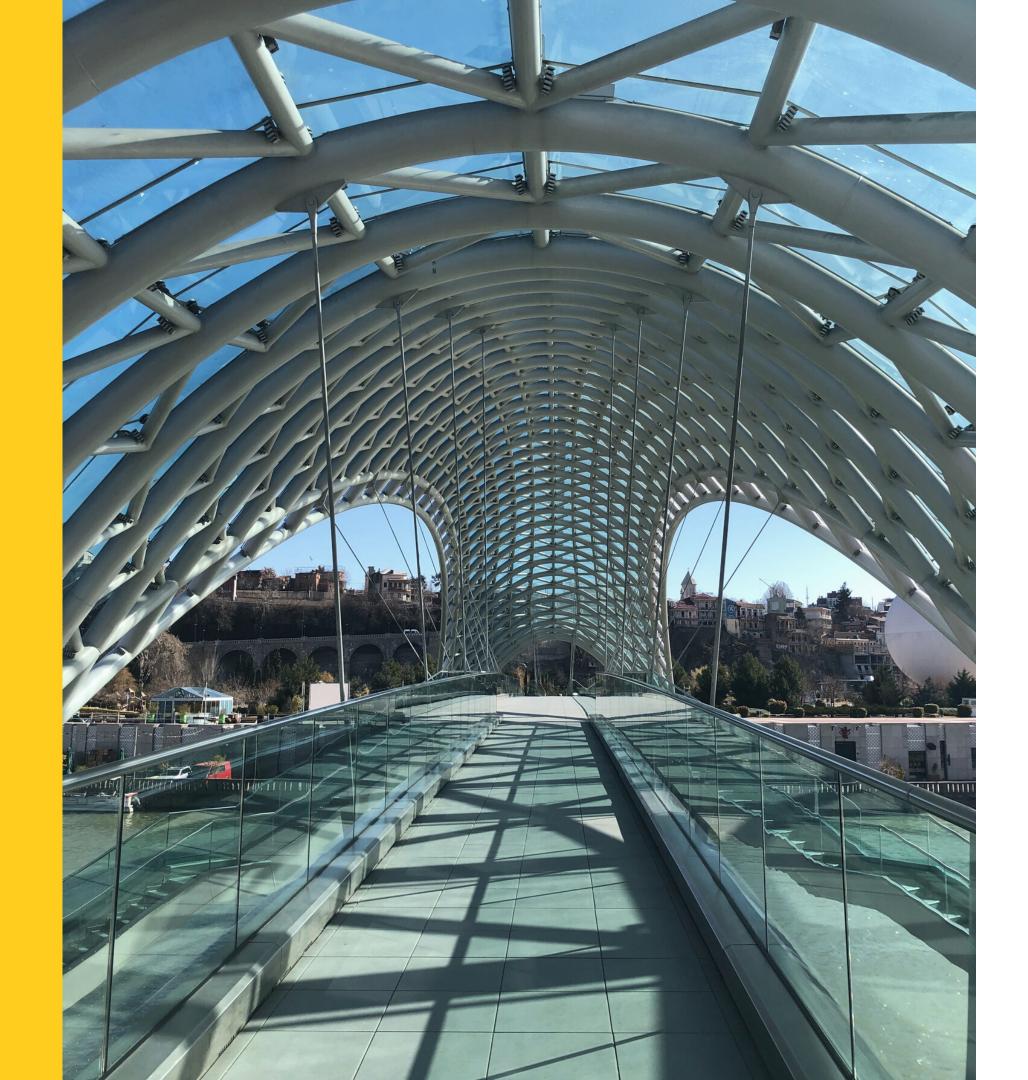

We get to know the Georgian culture here pretty well! From the Orthodox Church, different holidays or old traditions to food, behavior and daily life -we learn something new about Georgia every single day.

Projects with Droni

With Droni we are organizing different projects, for which we are visiting different places and organizations as well. Examples are the game evening, cleaning events or our library project in Zugdidi at the seaside.

Our beautiful Tbilisi -Sightseeing, Cafes, Nature and interesting people.

LOTS AND LOTS OF GOOD FRIENDS FROM ALL OVER THE WORLD!
